Nordic Valley to Offer Night Skiing This Season
Nordic Valley Ski Resort lights up the mountain for night skiing this winter

OGDEN, Utah (Nov. 11, 2026) - Nordic Valley Ski Resort will offer night skiing this season on its Bridger lift. Guests can ski and ride under the lights from 3 to 8 p.m. every night from Saturday, Dec. 26, 2026, through Saturday, Jan. 2, 2027, and then every Friday and Saturday, conditions permitting.

"Bringing night skiing back to Nordic Valley was one of our biggest priorities this season," says Mike Lewis, the new general manager of Nordic Valley. "Thanks to the hard work of our mountain team, we're proud to announce night skiing is officially back at Nordic Valley."

Night skiing is an important part of Nordic Valley's history. For years, it played an important role in the community, giving people a way to ski and ride after their school and work days were done. Its return marks a significant step forward for Nordic Valley as it looks to the future of the resort.

This season, Nordic Valley is offering $9 lift tickets, which can also be used for night skiing. On select dates, adult tickets bought online in advance include $10 in Nordic Cash to spend on food, drinks and retail at the resort that day. Details are available at nordicvalley.ski.

$9 tickets and night skiing join several other improvements on the mountain for the season. Nordic Valley has bolstered its snowmaking system with over 1,000 feet of new pipe and an improved connection to the snowmaking water supply. Season passes now feature RFID technology, so guests can pick up a pass card at the mountain's kiosks and head straight to the lifts. The new 6-week Junior Senders program features focused half-day AM and PM sessions, so twice as many kids ages 8 to 16 get to ski and ride with Nordic Valley instructors. Classes start Jan. 9.

Nordic Valley's scheduled opening date for the 2026/2027 season is Dec. 18, 2026. Night skiing on the Bridger lift runs nightly from Dec. 26 through Jan. 2, then Fridays and Saturdays, from 3 to 8 p.m., conditions permitting.

About Nordic Valley
Nordic Valley Ski Resort, located in Eden, Utah, and only 25 minutes from downtown Ogden, was first established in 1968. Nordic Valley offers beginner, intermediate and advanced terrain for skiing and snowboarding with 200 skiable acres, four lifts, a terrain park and snowmaking that covers 50% of terrain. The Utah ski area receives an average of 300 inches of snow

annually and has a 1,700-foot vertical. It also features food and beverage carts at the base, a rental shop and a ski and snowboard school.
